
Investindustrial named B-Corp “Best for the World” on Governance by B Lab for the second consecutive year

We are pleased to announce that Investindustrial has been recognised by B Lab as Best for the World™ 2022, with the score achieved in the Governance impact area on the B Impact Assessment being one of the top 5% in its size group worldwide. This is the second consecutive year that Investindustrial has been awarded Best for the World™.

In 2020, Investindustrial achieved B Corp™ Certification (www.bcorporation.net) as a result of its ongoing focus on sustainability and its approach to building better businesses. In doing so, the Firm joined a global network of leading industrial companies and investment firms across 71 countries.

Certifying as a B Corp™ goes beyond product or service-level certification and is the only certification that measures a company's entire social and environmental performance.

As a B-Corp, Investindustrial sees the value from B-Corp™ certification to drive culture change in the companies, to build purpose and to drive positive value creation for all stakeholders. There are multiple elements for value creation and delivery through B-Corp™ namely the development of organisational identity and culture, innovation culture for products and services, systemic relations with stakeholders, sustainability integration with corporate strategy and strengthened governance structures. Six of Investindustrial's portfolio companies are currently going through the process of B-Corp™ certification, with B-Corp™ status expected late in 2022.
